

BioSkills Course

Difficult Primary Total Knee Arthroplasty

Anatomisches Institut der Universität Tübingen

4-5 April 2017

Faculty:

Prof Francesco Benazzo

Mr Philip Chapman-Sheath

Dr Martin Pietsch

Meeting Information

This immersive and flexible practical course aims to give you all of the knowledge and skills that you require to evaluate this procedure. Please ask any questions as they arise, and the Zimmer Biomet Institute Faculty and Staff will help you find your solution

Learning Objectives

- Review the most common causes of difficult primary TKA surgery
- Discuss pre-operative planning and formulate a surgical plan
- Investigate available implant options for each scenario
- Perform the planned surgical procedure to solve the complex primary TKA case
- Review surgical tips from expert faculty that will be beneficial in practice

The primary aim is to ensure the safe and effective use of Zimmer Biomet implants.

Program

Tuesday 4th April

	Hotel
