

BioSkills

Vanguard® Revision Knee Arthroplasty

Preliminary Program

Université Paris Descartes

Paris, France

25 – 26 April 2018

ZIMMER BIOMET
Institute

BioSkills

Life is all about activity. At Zimmer Biomet Institute we therefore believe our delegates should play an active part when learning about new products, surgical techniques or the like. Get your hands and brains on human specimens, sawbones and instruments to deepen your knowledge and enhance your skills!

The specific course objectives include:

- Recognise the importance of determining the cause of primary implant failure
- Understand the indications for Vanguard® 360 Revision Knee implants
- Evaluate the instrument options available for Vanguard 360 procedures
- Perform revision knee procedures safely and effectively on anatomical specimens
- Discuss bone loss classification in the femur and tibia
- Investigate advanced techniques for managing severe bone loss
- Review the surgical tips from expert faculty that will be beneficial in practice

The primary aim is to ensure the safe and effective use of Zimmer Biomet implants.

The Zimmer Biomet Institute wishes you a valuable and enjoyable training with us.

Zimmer Biomet Institute

Our continuum of education offers a vast range of opportunities to health care providers and Zimmer Biomet team members to **learn, interact, understand** and **share** knowledge about our products, services and about surgical philosophies through a variety of modalities.
