Hotel NH Den Haag
The Hague, The Netherlands
8 - 9 May 2017

Chairmen:

Mr. William Jackson
Prof. Andrew Price

Host Chairman:

Dr. Stefan Breugem

ZIMMER BIOMET
Institute

Masterclass

We know you are good. And we know you are eager to become even better. Get those real-time problem-solving deep-dives with Skill Enhancement by the Zimmer Biomet Institute!

The specific course objectives include:

After the two previous Oxford Young Circle meetings, many of the members identified a number of topics that required more in-depth discussions with more interaction and more active participation of the group.

These identified topics will be the core content of the 3rd Oxford Young Circle masterclass. Each session will be facilitated by one of the chairmen of the Oxford Young Circle. Each participant/member will prepare each of the sessions, bring own experience, open questions, thoughts and opinions, relevant publications, difficult and success cases.... In short everything that adds value to the debates.

At the end of each session we will summarize the learning points that have been identified. The learning value is the result of the open and interactive debates and shared expertise.

The Zimmer Biomet Institute wishes you a valuable and enjoyable training with us.

Zimmer Biomet Institute

Our continuum of education offers a vast range of opportunities to health care providers and Zimmer Biomet team members to **learn, interact, understand** and **share** knowledge about our products, services and about surgical philosophies through a variety of modalities.
